

# Rightview PRO

The Best Way to View Your Swing or Pitching Mechanics!!

Slow it down so you can see it and Understand the Issue, so you can correct it!

## RIGHTVIEW PRO

Elite Instructional Academy offers the latest and the best program in Hitting and Pitching Analysis, Rightview Pro! This is the best product on the market for this job. Many player have found that the combination of Instruction and Video is the best teaching tools in the game for both baseball and softball. RVP can be used for both hitting and pitching. The program allows the instructor to break down the players' movement through video and slow motion. Many players learn differently to adapt to each individual RVP is the teaching tool of choice. Many players understand what they are doing when they see themselves on the screen.

This RVP technique helps players understand their movement, and which movement needs to be changed or adjusted.

IT WHEN THEY SEE NEXT TO A PRO...

### WHY USE IT?

"RVP's goal is to provide coaches with all the tools, the models, and the instruction to help coaches communicate more effectively with their students."

Don Slaught  
President RVP

If you are interested in looking at you swing or your pitching mechanics on the big screen with one of our instructors give us a call. We will analyze your swing or mechanics and make some suggestions to help you preform better. We understand that each player is an individual and learns different then others, we can help with that.
